Employment History

Nov 2025 – Present

PhD Student & Cybersecurity Researcher, Polytechnic University of Turin

- **Research Areas:** *AI Security, Deepfake Detection, Medical Data Security.*

Sep 2026 – Present

Adjunct Lecturer, Polytechnic University of Turin

- Teaching Computer Networks labs for Bachelor's and Master's courses.
- Supervised four Master's theses.

Nov 2023 – May 2024

External Collaborator, PWNX s.r.l., Remote

- Designed and implemented ten cryptography laboratories in *Python*, employing a "Capture the Flag" approach to enhance learning experiences.
- Developed more than thirty personalized one-on-one modules focused on *Linux Security* and *Cryptography Theory* for individualized learning.

Education

Oct 2023 – Oct 2025

M.Sc. Cybersecurity Engineering, Polytechnic University of Turin

- **Specialist track:** Cryptography expert.
- **Thesis title:** *Evaluating Backdoor Attacks Over Centralized and Distributed Medical Image Processing.*
- **Graduation Mark:** 110/110 cum laude | **GPA:** 29.65/30

Oct 2020 – Oct 2023

B.Sc. Computer Systems and Networks Security, University of Milan

- **Thesis title:** *Advanced Techniques of Visual Cryptography and Steganography for Sharing of Medical Images.*
- **Graduation Mark:** 110/110 cum laude | **GPA:** 29.38/30

Sep 2015 – Jul 2020

High School Diploma in Computer Science, ITIS E. Mattei (Sondrio)

- **Graduation Mark:** 96/100

Advanced Courses & Training

Aug 2026

International Cyber Security Summer School, The Hague (Netherlands)

Organized by NATO C&I Agency, Europol, Leiden University, and Security Delta, covering the technical, legal, and policy dimensions of cybersecurity.

Oct 2024 – Jan 2025

Automotive Cybersecurity, Challenge@PoliTO by Stellantis

Collaborated in a multidisciplinary team to explore cybersecurity challenges related to Autonomous Vehicles and V2X technology.

Feb 2023 – May 2023

National Cybersecurity Training Program, Cybersecurity National Lab

Selected through the *CyberChallenge* initiative to join Italy's main government program for identifying and training future cybersecurity professionals.

Education (continued)

- Nov 2022  **International Cyber Conflicts**, The State University of New York (*Remote*)
Gained an understanding of international cybersecurity policies, as well as the psychological and sociopolitical factors influencing attackers and cyberattacks.

Research Publications

- 1 **Christian Coduri** et al. "Formal Verification and Mitigation of Vulnerabilities in the IMDGuard Protocol". In: *IEEE 24th International Conference on Pervasive Computing and Communications (PerCom Workshop)*. 2026.  DOI: 10.1109/PerComWorkshops68308.2026.11585400.
- 2 **Christian Coduri** and Stelvio Cimato. "A Framework for Secure Sharing of Medical Images Based on Visual Cryptography". In: *IEEE 49th Computers, Software, and Applications Conference (COMPSAC Workshop)*. 2025.  DOI: 10.1109/COMPSAC65507.2025.00280.

Awards

- 2025 – 2026  **Fondazione Felix Leemann Scholarship** - Lugano (Switzerland). [6000 CHF]
Awarded for academic excellence as a Swiss student from the Canton of Graubünden.
- Feb 2026  **Le Cento Tesi** by De Cifris Association.
Bachelor's thesis selected among the Best 100 Italian Cryptography Theses (2017–2024).
- Mar 2024  **STart STem Scholarship** by the Unione Industriali Torino. [3000€]
 - Selected as one of the top 64 first-year master's students in STEM disciplines at Polytechnic University and University of Turin.
 - Delivered 40 hours of math academic support to lower secondary school students.

Professional Activities and Talks

- 21 May 2026  **Milan0day (Milan, Italy)**: Breaking Pacemaker Authentication with Formal Methods.
- 17 May 2022  **ISIS Gino Luzzatto School (Portogruaro, Italy)**: What is Cybersecurity?

Projects

- 2024 – 2025  **VisualCrypto**. A Python-based toolkit for *Visual Secret Sharing*, implementing cryptographic techniques that split a secret image into multiple shares. The project allows adding new cryptographic schemes and includes a web interface for ease of use. <https://github.com/coduri/VisualCrypto>.
- 2020 – 2022  **Get The Cookie**. A YouTube Channel with the goal of helping university and high school students understand computer science concepts (*in Italian*). Achieved over 1.2 million views, demonstrating the significant impact of the project. <https://www.youtube.com/GetTheCookie>.
- 2020 – 2021  **FitFocus**. An online fitness platform for nutrition tracking, progress monitoring, and workout planning. Included trainer-side dashboards for client management. Initially built on a *LAMP stack*, later migrated to *NodeJS* for improved performance.
